

Cambrian Gas Ltd recognises its responsibility to the environment and we will ensure compliance with all relevant current and future legislation.

As a business, we are fully committed to minimising any negative environmental impact to our planet from both our **business** and our **customers**.

COMMITMENT TO OUR BUSINESS

In line with the UK liquid gas association goal, we commit to supplying 100% renewable BioLPG by 2040.

We continue to invest in telemetry ordering systems to help achieve 100% automated bulk LPG ordering by 2040, helping us be efficient as possible with our vehicle fleet.

COMMITMENT TO OUR CUSTOMERS

Communicate energy saving tips and guidance to our customers on changes they can make to their homes in order to increase energy efficiency and help minimise environmental impact.

Help inform customer base of potential government grant schemes available to improve the energy efficient of their homes.
